

JET-LUBE® NO. 33

AUTOMOTIVE & INDUSTRIAL SILICONE GREASE

DESCRIPTION

JET-LUBE® NO. 33 is a premium grease for use in a wide variety of applications. Its low volatility and low temperature properties allow the product consistency to remain constant over a wide temperature range. **JET-LUBE NO. 33** is excellent for ball and roller bearings under light loads; plastic and rubber parts; small gears and applications requiring oxidation resistant lubrication. **JET-LUBE NO. 33** is especially effective in equipment that must start in extreme cold.

JET-LUBE NO. 33 can provide excellent lubrication and sealing properties for plug and gate valves, o-rings, vacuum and pressure systems. The thickener is a soap which provides better oxidation resistance. It is not recommended for use on surfaces to be painted.
